SUMMARY

Business Analyst and Data Analyst with hands-on experience in sales reporting, KPI monitoring, operational reporting, and business intelligence dashboards. Proficient in SQL, Microsoft Excel, Power BI, and Tableau for revenue analysis and data-driven decision making. IEEE-published researcher with strong analytical, cross-functional, and stakeholder communication skills.

EXPERIENCE

Campaign Manager Intern

November 2025 - Present

EduVeda

India

- Optimized 5+ digital campaigns by analyzing 500+ lead records using Excel and CRM tools.
- Built weekly performance dashboards tracking lead conversion, engagement rates, and outreach KPIs.
- Conducted customer segmentation across 3 channels to improve targeted student outreach efficiency.
- Delivered monthly campaign insights reports to support data-driven enrollment pipeline decisions.

Business Analyst Intern

May 2025 - August 2025

Celonis, EduSkills

Remote

- Performed process mining on 1,000+ transactional records using Celonis to identify operational bottlenecks.
- Gathered business requirements and built KPI dashboards tracking cycle time, throughput, and workflow metrics.

Business & Strategy Trainee

July 2024 - January 2025

Forge Innovations & Ventures

India

- Led market research and competitor analysis across 10+ competitors for 3 startup innovation projects.
- Executed financial modelling and ROI frameworks to evaluate early-stage venture feasibility.
- Conducted industry benchmarking to identify strategic growth opportunities for new business proposals.
- Prepared stakeholder presentations synthesizing market insights, financial projections, and strategy recommendations.

PROJECTS

Revenue & Sales Performance Analysis | Tableau, Power BI, SQL

- Analyzed 18 months of sales data (3,000+ transactions) using SQL to identify pricing inefficiencies, regional performance gaps.
- Built business intelligence dashboards in Tableau and Power BI tracking revenue, margins, and operational sales KPIs.
- Identified underperforming regions through sales trend analysis and forecasting to support pricing decisions.

Customer Churn & Retention Analysis | Excel, SQL

- Analyzed 3,000+ customer records using SQL and Excel to identify key churn drivers and behavioral patterns.
- Segmented customers into risk categories based on engagement, purchase frequency, and revenue contribution.
- Developed a data-driven retention framework to support customer lifecycle management and improve retention and lifetime value.

SKILLS
